. Wheat Unsettled and Lower, Without Positive Indications for the Future.

Corn Declines Nearly One Cent in Sympathy with Wheat-Oats Weak and Lower-Holders of Pork Anxious to Realize,

MONEY, BONDS AND STOCKS.

A Doll and Weak Opening at New York, Followed by an Increase of Firmness. NEW YORK, May 15.-Money on call was easy at 1@2 per cent., the last loan being made at 1. closing offered at 11.

Prime mercantile paper, 41 261 per cent. Sterling exchange was quiet but steady at \$4.86 for sixty-day bills, and \$4.884 for demand.

The total sales of stocks to-day were 176.186 shares, including the following: Delaware & Western, 7,000; Erie, 4,500; Lake Shore, 6,400; Missouri Pacific, 3,785; Northwestern, 6,-205; Northern Pacific preferred, 5,650; Oregon & Transcontinental, 8,300; Reading, 39,180; Richmond & West Point, 37,350; St. Paul, 10,350 Union Pacific, 10,830; Western Union, 5,385.

The stock market was very dull to-day, and was week in the forencon, but recovered its tone later, though the fluctuations were confined to the narrowest limits. The opening was made at irregular changes from the closing figures of yesterday, and for a short time the market was feverish, though generally weak. The professionals were selling, and the temper of the room was rather bearish, and as there was very little support in the market beyond the foreign buying of Reading prices quickly began to yield. Commission houses had few orders, and the market became a regular traders' market after the first few minutes. The interest centered in Richmond & West Point, which was strong in the face of the weakness displayed in the genera list, but the feature in the dealings in that stock was the large number of shares sold seller thirty days and each side in the stock accused the other of selling, and it was stated that considerable of the stock had been bought in the New York Stock Exchange and sold in the Conper cent less, to be delivered under the rules of the latter through their clearing-house, the seller having had the use of the stock in the meantime over the closing of the books on Fri-day. Missouri Pacific was specially weak in the early dealings, but there was no further feature until near noon, when Chicago, Burlington & Quincy came to the front and dropped 17 per cent, the market in the meantime having become extremely dull and utterly stagnant. A bet-ter tone prevailed after 12 o'clock, but there was no animation whatever till the last hour, when the general list showed more marked strength, but Wheeling & Lake Erie preferred was very weak, dropping from 54 to 511, though a portion of the loss was afterward recovered. The latter company has nearly completed the right of way for their new extension, from Bowerstown to Wheeling. Grading is to begin about June 1, but it is expected that the line will be hard to build, because of numerous tunnels and cuts. The market again became extremely dull be-fore the close, which, however, was firm at close to the best figures. The final changes are gen-erally in the direction of lower figures, but are for fractions only, except in Chicago, Burlington & Quincy, which declined 15, and Manhattan, 11; Pullman advanced 11:

The railroad bond market was dull but firm; the sales amounted to \$1,038,000. Finalprices are generally higher, and Ceneral Iowa first certifications.

cates rose 3, to 75; International firsts, 2½, to 103½; Indiana, Bloomington & Western first certificates lost 2, at 80.

Government bonds were quiet and firm. State bonds were dull and steady. Closing

Hay unchanged and quiet.

Hope steady.

Coffee—Spot fair Rio steady at 15fc. Opueus lower and fairly active; sales, 92,250 bags;

May, 13.60@13.65c; June, 12.95@13.25c; July, 12.35@12.50c; August, 11.75@11.90c; September, 11.05@11.25c, October, 10.80@10.90c; November, 10.70@10.75c; December, 10.65@10.80c; January, 10.70@10.75c; February, 10.80c; March, 10.70@0.010.75c; April, 10.75@10.80c. Sugar dull and nominal; fair refining quiet at 4½c for 96 test; centrifugal, 7.15-16@7½c; molasses grades, 4@0.4%c; refined quiet and unchanged. Molasses dull; 50c, test 20. Rice steady.

Tallow steady at 4½c. Rosin firm at \$1.22½@1.274.

Eggs firmer but quiet; Western, 131 014je; receipts, 5,826 packages.

Pork has a light inquiry; prices unchanged. Cut meats quiet but firm; pickled bellies, 7%c.
Lard advanced 3@4 points, but later the advance
was lost, after a slow business; Western steam,
spot, 8.85c; June, 8.70@8.74c; July, 8.71@8.76c; September, 8.74@8.77c; October, 8.74@8.78c; city

steam, 8.25c. Butter easier and in fair demand; Western,

17@25c. Cheese quiet and weaker. CHICAGO, May 15 .- The market was unsettled and lower to-day, without anything decisive appearing to indicate future action. The trading was based largely on what the crowd thought the leaders were doing, and not upon statistics or crop news or grain movements. On the whole, the majority were sellers, but the sup-port of a few prominent "bulls," and the belief port of a few prominent "bulls," and the belief that the weakness was but temporary, prevented any stampeds. Each depression was quickly followed by a slight rally, but the decline for the day was nevertheless quite marked. July wheat opened at 89 c, sold down to 88 c, up to 88 c, and back to 88 c, where it closed. The question with the pit was whether the big traders were getting from under wheat quietly, and this caused the greater part of the selling. The corn market, which has been helped up by the remarkable advance in wheat of late, went down with wheat to-day. The decline from the opening to the close was The decline from the opening to the close was or a little more than half the decline in wheat for the same time. May opened at 59 c, sold at 59 c down to 59c, and closed at 59 c. July opened at 58 c, sold off to 57 , and closed at 571c. In the market for oats the May option was firm, owing to a good demand from "shorts," but the other months ruled weak and lower in sympathy with other grains. May opened at 35½c, sold up to 35½c and closed at 35½c. July opened at 34½c, advanced to 34½c, reacted to and closed at 33½c. Provisions were weaker, with more disposition on the part of holders to realize. The weakness in grain tended to depress sales, despite the fact that arrivals of hogs were small and prices higher. Pork broke 22 c from opening prices. Lard broke .07 c from the top. Short ribs were firmer for a time after the opening, but soon broke .10c. July pork sold at \$14.47 at 14.70 and closed at \$14.47\. Lard at 8.52\frac{1}{2}\alpha 8.60c, and closed at 8.52\frac{1}{2}\alpha 8.60c. Short ribs sold at 7.70\alpha 7.80c. and closed at 7.70c. Sheep-Receipts, 778; shipments, 914. In good demand. Lambs in fair supply and steady; steady Hogs-Market firm; common and light, \$4.25@ 5.65; packing and butchers', \$5.40@5.90; receipts, 1,000; shipments, 300.

INDIANAPOLIS MARKETS. Trade Quiet-The Coffee Market In Strong

Position, Prices Advancing.

INDIANAPOLIS, May 15.

A cold rain seriously checked trade to-day. Ir all departments quietude was the chief characteristic. While merchants can hardly be said to be blue, they are feeling that good, warm weather would be appreciated and would stimulate business. The volume of business this month thus far has been far from satisfactory, and considerably below expectations in the early days of the month, and it is hardly probable that the sales of May, should they improve handsomely, will reach the amount of those of the corresponding period 1887. With the exception of coffees prices to-day in the grocery line ruled steady. Green coffees move up cent, and roasted grades | cent, and sugars have an upward tendency, but no advance was estabjished to-day. The produce markets drag. Eggs steady. Choice butter more plenty, and prices weak. The same is true of poultry. Strawberries in light supply, and higher, if choice fruit. Most of the stock received to-day was of an inferior quality. Irish potatoes, of Southern production, becoming quite plenty, and weak at our quotations. Early vegetables of other descriptions in fair supply, and unchanged in price. The provision market was

firm at the advanced quotations of Monday.

More is doing in a jobbing way this week, and
holders of hog products are looking for an increased demand from now on. Tameness is
still the leading characteristic of the hide market, and East prices are drooping; here, unchanged but weak in tone. There was a fair attendance on 'Change today and bidding was spirited, with a stronger range of prices. Indianapolis Market Report says of the local market: "Receipts and shipments for past two days, as against the preceding two days, show an increased movement of oats and wheat; corn movement about the same. Local receipts as per report of inspector are some better, there being thirty-four cars inspected during the past two days, against twenty-six care for preceding two days. Wheat market is higher and strong; holders asking 95c track. On the call beard 93e was best bid, but a fraction higher could be easily obtained. Corn prices are on a higher range to-day. The bidding is largely by shippers, as local demand and trade is dull. Indiana ear is in good demand for the city jobbing trade; choice yellow would sell at 59259je. On the call board: 58e was best bid, while holders were asking 62e. Oats are in good demand for shipment. Local trade, although fairly good, shows a falling off. Today, for the first time, were prices made on the new crop of cats, August delivery offered at 30je, with 28e bid. Feeds are slow sale, al-

though prices are rather higher. Hay continues in fair demand, at slightly better figures.'
Track bids to-day ruled as follows: Wheat-No. 2 Mediterranean..... No. 2 red une..... Corn-No. 1 white..... No. 2 white..... No. 2 yellow...... No. 3 yellow....

No 2 mixed..... No. 3 mixed..... fellow ear..... May.....

Farm Notes. Where the turkeys roam off to long distances and forage in the woods it is a practice with some to put a small bell on one of the flock. Fire is the best preventive of disease in orchards and vineyards. If all the old wood be piled up and burned it will greatly lessen disease and insect attacks. It should be done early

Salt should be placed where all kinds of stock can get it. At this season, when green food is becoming plentiful, salt will be found excellent, as it will often prevent bowel diseases and stave off injury from the young grass.

In England the garden-walks on a large estate are kept free from weeds by the simple process of giving them a coat of salt during fine weather in the spring. The salt slowly dissolves and kills the roots of the weeds.

The garden should be made as fine as possible. If large, the harrow should be used, and the ground gone over a dozen times if necessary.

After this let the rake be used. Too much work cannot be given to the preparation of the garden. Not a single clod or lump should be allowed on

Plum trees will thrive well in a poultry-yard and be less subject to the attacks of the curculio. The trees will require the usual jarring. however, but the insects will be destroyed by the poultry, thereby lessening the liability of damage the succeeding year. All plum trees should be in the poultry-yards.

A white bull, weighing 4,800 pounds and said to be seven feet high and twelve feet long, arrived at the stockyards in Jersey City Tuesday of last week. It is said to be the largest bull in the world. G. M. Snodgrass, a wealthy cattledealer in Virginia, is the owner. Adam Forepaugh, the showman, wants to buy it. A writer in one of the English papers claims

that the practice of ringing swine is one of the principal causes of the production of disproportionately fat pork, and that an indulgence of the animal in its natural desire for digging and rooting is "highly beneficial to the proper development of the sinews, which is very essential in the produce of lean or streaky ment, now so much desired."

No other preparation so meets the wants o debilitated system as Ayer's Sarsaparilla. UNION STOCKYARDS.
